# September 2024 Standards Update

07/12/2024

Welcome to the quarterly Standards and Rule Book update. Over 30 Rule Book modules and handbooks have been updated in five project areas. These include GSM-R radio, walking on the track safely, operation of route and line proving trains, speed restrictions, and use of the warning horn. There are also two new standards, a new technical note, new signage, and more.
