Subject: Question regarding DOE's RFI. Air Cleaners

Hi,

This is Ernesto Leal, Product Safety Engineer from Electrolux.

2022-01-25 Energy Conservation Program: Test Procedure and Energy Conservation Standards for Consumer Products; Consumer Air Cleaners; Request for information

I have been reviewing the RFI regarding Air cleaners and I have a couple of questions that I wish I can have answered.

Is DOE's intent is to work on a 5-6 year timeframe? Or more immediate i.e. 2-3 years?

Is the current work going to feedback to the International Standards discussion ongoing globally?

Thank you so much in advance for your input.

Best regards,

Ernesto Leal Odreman.

Product Safety Engineer - Regulatory & Compliance.
