To: Watson, Troy <troy.watson@ee.doe.gov>; Whiting, Amelia D. <amelia.whiting@hq.doe.gov>

Subject: DOE Issues a Final Rule Pertaining to Test Procedures for Air Cleaners

To whom it may (really) concern:

If Standards (see referenced above) are put in place with the intended goals of:

1. Saving energy
2. Saving costs
3. Increasing air filtration to where filter bypass or coil fouling / related energy consequences are reduced

.... and you have NOT included space in our markets for Electret Filtration Technology – you are doing a great disservice to our country's HVAC / energy consuming systems and are missing the target.

Chuck
